✧ Atrium™

Contemporary in style, the Atrium pool promises all the pleasures – and relaxation – that your family deserves this summer! Made from blow-molded resin, the Atrium is notable for its high-tech design – a robust structure that is 100% corrosion-resistant.

12' [3.66 m] 15' [4.57 m]
18' [5.49 m] 21' [6.40 m]
24' [7.32 m] 27' [8.23 m]

12' x 23' [3.66 m x 7.11 m]
15' x 30' [4.57 m x 9.14 m]

❖ Atrium™ — Dune 52" (1.32 m)

Simplicity is the operative word for this sturdy aboveground pool. The convenient EZ-LOCK system and the innovative upright design allow for fast and easy installation, without any screws required.

Oval pool with invisible supports

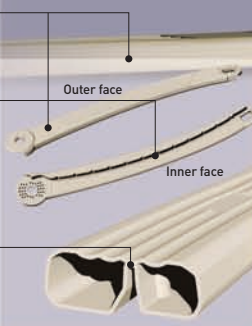

❖ EZ-LOCK system

- Simple, quick installation
- Airtight after proper adjustment
- No extras required – the part is the tool

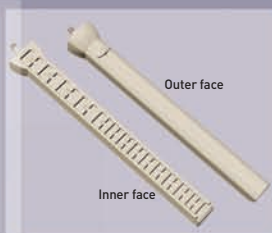

❖ top ledge

- Highly precise modular assembly
 - All types of liners work with its curved internal ribbing
 - Blow-molded resin for superior strength
- Internal ribs ensure:**
- Full support of liner and steel wall
 - Optimal stability

❖ tacking system

A specialized system for maximum deflective resistance welds the upper and lower sections of the top ledge.

❖ upright

- Monocoque system with no screws required¹
- A combination of innovative design and classic style
- Ribbed molding increases the structure's resistance to water pressure – especially at the upright's base, where that pressure is most intense

❖ slide-in joiner plate

- Upright design includes an insertion system for fast, easy installation
- No screws required
- Movement-prevention system provides maximum resistance to water pressure after assembly

❖ y.e.s.

Yard Extender System

Invisible lateral supports on oval pools. For anyone who wants to make the most of their yard – and their pool!

❖ decorative ledge cover

Ledge cover joint covered by an attractive cap.

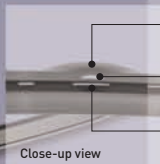

❖ indexing system

- Pins anchor the structure at the appropriate points for the desired pool dimensions
- System² reinforces structural stability and ensures a consistent rounded shape
- Pieces assemble for a perfect fit

❖ bottom wall channel

- Smooth, undulated shape increases pool strength
- Rust-proof rail and built-in drainage slot prevent wall corrosion
- Wall clip permits stability with ground changes

❖ base crown

A double-lock system around the base of the uprights provides increased strength and solidity, as well as double protection that keeps joiner plates fixed and firm.

❖ water safety

The purchase of an aboveground pool provides years of pleasure and fun, but it also involves water safety. Although we cannot supply a full-time lifeguard, we strongly recommend that you implement the following safety rules. These will help provide a pleasant atmosphere for you and your family.

- NEVER jump or dive in an aboveground pool.
- Maintain constant adult supervision when children are in or near any body of water.
- Read all of the safety, installation, and maintenance information contained in the instruction manual and Water Safety brochure before you start installing your pool.
- Ask your city about any specific rules and regulations that apply to aboveground pools.
- Follow the instruction manual and maintenance instructions.
- Never remove applied or posted safety stickers or signs from your pool or pool area.

- Barriers to prevent unsupervised access, especially by young children, should be built, installed and checked on a regular basis to ensure they are in good working order.
- Inspect your pool, barriers, alarms, and other related equipment on a regular basis in order to ensure they are in good working order and that they are safe.

The installation, maintenance and safety manual contains detailed tips and recommendations. They must be read, followed and applied on a regular basis, as they will prevent unnecessary accidents and will ensure many summers of pleasant, safe family fun.

SWIM SAFELY AND STAY SAFE

1. For round structures only.
2. U.S. Patent 6,412,122 and other patents pending, international applications designating Canada, France, and other countries pending.
